

GILBERT ASARE

Software Engineer & Aspiring AWS Cloud Solutions Architect

Tesano, Accra, Ghana | +233 59 921 5326 | gasare5326@gmail.com | [LinkedIn](#)

SUMMARY

Software Engineering student and AWS Certified Cloud Practitioner with backend platform development experience and coursework in cloud computing and server-side architecture. Skilled in building web applications, developing efficient APIs, and managing server-side architecture. Dedicated to leveraging software applications, technical troubleshooting and cloud design principles to build and optimize scalable infrastructure.

WORK EXPERIENCE

Npontu Technologies | Tsa-Addo, Ghana

Platform Developer (Backend) — Intern. Jan 2025 – Apr 2025

- Contributed to the building of an activity tracker system and an e-learning platform in a backend platform development role.
- Developed backend architecture and database structure for two applications, showing hands-on ownership of server-side design work.

National Identification Authority (NIA) | Akim Swedru, Ghana

Technical Support Officer — Intern. Sep 2025 – Nov 2025

- Operated specialized print servers and machinery for the production, lamination, and finishing of official Ghana Cards.
- Conducted quality assurance checks for printed and laminated security features, maintaining zero-defect output.
- Maintained and calibrated identity card printing hardware to sustain daily production targets.
- Sorted and logged produced cards securely for efficient distribution to citizens.

EDUCATION

Ghana Communication Technology University | Accra, Ghana

BSc Software Engineering (In Progress) January 2024 – Present

- Coursework: Cloud Computing, Server-Side Architecture, Software Design Principles

TECHNICAL SKILLS

Languages: Python, PHP, React, APIs, Web Technology | **Cloud:** AWS (Certified)

Security: Cyber Threat Management, Network Defense | **Tools:** Git, GitHub, VS Code, MySQL

CERTIFICATIONS

- **AWS Certified Cloud Practitioner** — Amazon Web Services (2026) [View credential](#)
- **Cyber Threat Management** — CISCO (2024) [View credential](#)
- **Network Defense** — CISCO (2024) [View credential](#)
- **Introduction to Cybersecurity** — CISCO (2024) [View credential](#)
